JAWAHAR S

As a Full Stack Developer with 6 months of internship experience, I have hands-on experience building web applications using MongoDB, Express.js, React.js, and Node.js. I have experience creating RESTful APIs, designing user interfaces using React components, and developing server-side logic using Node.js and Express.js. I am passionate about building scalable and user-friendly applications and am eager to contribute my skills to any team as a Full Stack Developer.

Experience

SEPTEMBER 2022 – MARCH 2023
Guvi *Intern at IIT MADRAS*
As an entry-level full stack developer, I have experience in designing and developing both the frontend and backend of web applications using a variety of technologies. My skills include,

- Proficiency in the MERN stack, including MongoDB, Express.js, React.js, and Node.js
- Strong knowledge of HTML, CSS, and JavaScript
- Experience in designing and developing RESTful APIs using Node.js and Express.js
- Knowledge of database modeling and schema creation using MongoDB.
- Experience in implementing CRUD functionality using RESTful APIs and integrating Redux for state management.
- Understanding of responsive design principles and the ability to design and develop user interfaces.

During my internship, I worked on a range of projects which listed below that allowed me to apply my skills and develop my abilities as a full stack developer.
CRM App:
- Designed and developed frontend and backend of the application.
- Implemented CRUD functionality using RESTful APIs.

Nationalized API:
- Designed and developed RESTful API using React.js.

Student Management Protocols:
- Designed and developed frontend using React.js and Node.js.

Skills

• JavaScript • HTML 5 • CSS 3 • React JS • Node JS • Mongo DB
• Express JS • GitHub • VS code •MySQL
